Preface

This policy book is a collection of operating procedures based upon Oklahoma State Law and local Board of Education guidelines. Its purpose is to establish a more efficient educational plan for the collection and the patrons of Avant School district C-035.

Because the Federal government and the State of Oklahoma are constantly revising, eliminating and originating laws pertinent to schools, the Board of Education feels a responsibility to its employees and its patrons to try to maintain a policy book that is up-to-date on the law.

The Avant Public School system wishes always to support an open-door policy encouraging all persons interested in education, students, faculty, parents, administration, board, community at large, to feel free to sit down together and discuss any matters related to obtaining the best possible instruction for this area's youth.

Most of the items within this policy book do not contain the specific laws that dictate policy, but interested patrons should feel free to ask about the precedents for these policies and to become better aware of the dictates that the local board must follow.

All of us are interested in quality education for our youth, and in that interest this policy book has been created.

ARTICLE I

SCHOOL DISTRICT C-035, AVANT, OKLAHOMA

SECTION A: RELATIONSHIP TO THE STATE EDUCATION SYSTEM

Education is a function of the State of Oklahoma. The will of the people of this state concerning education is expressed in the constitution and in the statutes enacted by the legislature. To direct the local program of education, two types of agencies have been provided; a lay Board of Education and a professional administration.

The board acts with the authority granted it by the legislative statute; its powers, both stated and implied, enable it to act, within the law, in government of the school district. Although elected by the local community, the members of the lay Board of Education are state officers.

The professional administration is responsible to the Board of Education and it makes recommendations to said board in all matters of school policy and carries out established board policies.

SECTION B: EDUCATIONAL PHILOSOPHY OF THE BOARD OF EDUCATION

1. The Board of Education has adopted the following set of statements as its philosophy for providing and maintaining an educational program for the children and youth of the community.
 - a. Public education is an institution established by the people to perpetuate and improve the American way of life
 - b. It shall be the educational purpose of this school to constantly improve the training of all boys and girls in mind and in character so each may develop his or her own unique talents, attitudes, and skills toward making satisfactory contributions to the welfare of both self and society
 - c. Each student shall be prepared scholastically to the best of his ability to meet the requirements of society today and in the future
 - d. Each student shall have the opportunity to develop an appreciation for literature, art, music, and nature through curricular offerings of this school
 - e. It shall be the intention of this school to promote healthy relations between the members of the student body, between the students and faculty, and between the school and community at all times
 - f. Every effort will be made to cause each student to develop a sense of responsibility and opportunity as a citizen of this community, state, and nation

SECTION C: OBJECTIVES OF EDUCATION

The following have been adopted as the general objectives of this school. It is the hope of the board and the administration that the effort to achieve these objectives will result in the best possible education for students in this community. The Avant Public School System will strive:

1. To develop in children and youth an appropriate understanding of the physical, social, scientific, and economic world in which we live, and to assist them to use their energies and abilities in proper and effective ways
2. To encourage and stimulate the continuous growth in all students' abilities to think clearly, logically, and independently, and to know and master their own potentials as they exercise their wills in conscious regard for the rights of others
3. To develop a moral and ethical sense in each youth so that he/she will manifest self-control, honesty, fairness, justice, tolerance, courtesy, and kindness to others
4. To give each child and youth, insofar as his abilities permit, a sound understanding of the tools of learning and a firm knowledge of the skills of communication, reading, writing, and all other disciplines of scholarship offered in this school
5. To develop in students an appreciation of the aesthetic values of art and music and to offer the opportunity to increase their skills in each
6. To help pupils find their most productive roles in life, and to give them the necessary preparation for further education or vocational training
7. To provide, as far as possible, physical and health education for each child
8. To prepare each student psychologically and socially for a well-balanced and productive life

SECTION B: WORKING PRINCIPLES AND PROCEDURES OF THE BOARD

The most important function of the Board of Education is the formulation of educational policy. School board decisions set the course of education in a community for years to come. How well this is done depends in large measure upon the wisdom and care with which decisions are made.

Policies are a statement that set forth the purpose and describe in general terms the organization and program of a school system. They create a framework within which the superintendent and his/her staff can discharge their assigned duties with positive direction. A clear understanding between the school board on the one hand and the staff on the other hand concerning policy formation and policy execution is necessary if policies are to be effective.

It is of utmost importance for the good of the children in the schools that the Board of Education and the superintendent work in an atmosphere of mutual trust and good will.

The following joint statement formulated by the Board of Education and the superintendent is adopted for agreement on working relationships.

The Board of Education will establish such policies for the conduct and administration of the schools as are prescribed by law and such other policies as may be deemed advisable and have them prepared in such form that all concerned will be aware of them.

The Board of Education will select a superintendent who shall be the head of the school system and be directly responsible to the board for the total administration of the school. The board will vest in him/her the necessary authority and provide him/her with appropriate personnel to carry out such administration.

The Board of Education will endeavor to give counsel and advice to the superintendent regarding the administration of the school, as it deems necessary or expedient.

The Board of Education will require of the superintendent such periodic reports, as the board deems necessary to keep it properly advised on the administration of the school district.

The Board of Education will expect recommendations for the welfare of the district from the superintendent.

The Board of Education will require the superintendent's attendance at all board meetings except at times when his/her own employment may be under consideration, or by mutual consent and authorization of the board.

The Board of Education will employ, promote, suspend, or dismiss personnel only after due consideration of the recommendation of the superintendent, and will issue all orders affecting employees through the superintendent of the school.

The Board of Education will endeavor to develop ways and means of serving the community and of keeping parents, patrons, and taxpayers informed of the school program.

The Board of Education will be responsible for thoroughly and constructively orienting new board members into the work of the board and the educational program of the school.

The Board of Education is the final authority on any issue that is not resolved through regular administrative channels and the effect upon the welfare of the students will be the basic and all-important criterion for any decision.

School board members will not attempt to solve problems nor answer complaints that require administrative decision-making. They will direct the complaint to the proper school official.

CERTIFIED STAFF

SECTION A: PROFESSIONAL GROWTH AND DEVELOPMENT

1. Graduate Work
 - a. Each teacher is encouraged to do graduate work in areas that will strengthen his/her teaching background. See the section on staff development.
2. Professional Meetings
 - a. Teachers will be expected to attend professional meetings for which school is dismissed.

SECTION B: LEAVE

1. Sick Leave
 - a. A total of ten (10) days sick leave with no loss of salary will be available to each full time member of the certified staff each year, accumulative to sixty (60) days. Certified staff teaching other than full time will receive a pro-rata portion of the ten days that is equal to the portion of the days taught.
 - b. Supervisors should regularly monitor and manage all of the sick leave used by employees in accordance with the following guidelines.
 - i. Use of Sick Leave Where No Abuse Has Occurred.
 1. Supervisors should monitor the amount of sick leave used by employees and should review sick leave usage for individual employees when use exceeds six (6) separate instances in a fixed twelve (12) month period.
 - a. Instances shall include: All actual sick leave used as well as other types of leave used in lieu of sick leave (e.g. same-day vacation leave requested in lieu of sick leave, leave without pay taken for sick leave reasons). Instances shall not include: Any FMLA qualifying time or time taken for prescheduled doctor's appointments, bereavement leave, workers compensation, or sick leave used in conjunction with the birth or adoption of a child or for the period of time that a doctor certifies a female employee unable to work because of pregnancy This standard does not define excessive use, but rather the point at which the supervisor should begin to consider #2 below.
 2. Recognizing Sick Leave Use Problems
 - a. If an employee meets the standard set out in #1 above, the supervisor needs to consider the following factors to identify sick leave use problems:
 - i. The frequency of and the reasons for sick leave use. (Absences necessitated by chronic long-term

illnesses/disabilities may require different considerations than casual, intermittent absences.)

- ii. The employee's unused sick leave balance.
- iii. The impact of the employee's absences on the workplace. (e.g., disruptions in work schedules, overtime costs, incomplete projects).

3. Responding To Sick Leave Problems

- a. If the supervisor determines a problem exists then the supervisor shall:
 - i. Counsel the employee on his/her use of sick leave.
 - ii. Investigate possible alternative arrangements for the employee (e.g., part-time work schedules, disability leaves of absence), if appropriate.
- b. Document all of these actions.
 - i. If the above methods are unsuccessful, a supervisor should consider the effect that the sick leave use has on the employee's performance and the operations of the employer. Discipline may be taken on the basis of the absences affecting the employee's performance, or the operations of the employer, and may be taken even when the reasons for sick leave use have been legitimate.

c. Sick Leave Abuse

- i. Abuse of sick leave is defined as the use of sick leave for purposes other than those in this policy and/or excessive use of sick leave.
 - 1. Supervisors should periodically analyze attendance records for evidence of possible abuse (e.g., patterns of absences on Fridays/Mondays, seasonal absences, absences when a vacation request has been denied).
 - 2. Sick leave should be denied when there is evidence or reason to believe abuse has occurred until or unless the employee provides satisfactory evidence of legitimate use of sick leave. Where a supervisor has reason to suspect that an employee is abusing sick leave the supervisor may require the employee to provide doctor's statements for a fixed duration to verify legitimate use of sick leave.
 - 3. Discipline may be enforced (to include suspension without pay or termination) for employees abusing sick leave.
 - 4. Employees who miss 3 days or more consecutively, must present to the superintendent a Doctor's note to explain the employees illness or injury.

- d. Employees will not be compensated for unused sick leave accumulated beyond the 60-day mark. However, sick leave will be documented up to 120 days for retirement purposes. Employees will not be compensated for unused sick leave upon their retirement, resignation, or termination of employment, but accumulated days will be documented for possible transferal to future places of employment.

- e. Sick leave is defined as personal accidental injury, illness or pregnancy, or accidental injury or illness in the immediate family. This will include parents, grandparents, brothers, sisters, children, or spouse of the teacher.
 - f. If after exhausting all sick leave, a teacher is absent from his/her duties due to personal accidental injury, illness, or pregnancy, the teacher shall receive the full contract salary, less the amount paid for a substitute teacher to fill the position. This shall occur for an additional period of twenty (20) days.
 - g. After all leave is exhausted and the ensuing twenty days period of reduced pay is exhausted, and the teacher is still unable to return to work on a permanent and full-time basis, the board shall have the option to:
 - i. Require resignation
 - ii. Place the teacher on leave without pay for the remainder of the year, or:
 - iii. Place the teacher on leave with differential pay for the remainder of the year, or until the teacher is able to return. Differential pay shall be discontinued immediately if the teacher earns any income from sources other than insurance claims. (The decision for determining which option is offered shall rest solely with the Board of Education and be based on length and quality of service.)
 - 1. Provided, however, that the superintendent shall make every effort to obtain a full-time certified replacement to assume the original teacher's duties. This replacement teacher's contract shall be temporary only, but shall include all the rights and responsibilities of full-time teachers on a pro-rata basis.
 - iv. If the original teacher is placed on either type of leave, (either without pay or with differential pay), the probability of that teacher being rehired shall be contingent upon a certified physical examination showing positive indication of recovery satisfactory for permanent and full-time employment. This certification must be made available to the superintendent by June 30 of the year of disability or the teacher shall forfeit all employment rights.
 - h. Sick leave may not be used on the day before a school holiday.
 - i. Employees must return to work following a school holiday for at least one (1) day before sick leave pay will be granted.
 - i. This rule will not apply if the employee is hospitalized
 - ii. The superintendent may waive this rule if in his/her opinion a waiver is warranted.
 - 1. The superintendent's decision to waive or not to waive is final.
2. Personal/Emergency Leave: Non-accumulative
- a. A maximum of five (5) days may be used for personal and/or emergency leave. Emergency leave may be used in the case of death of, or in a situation where death appears to be imminent for one of the persons described in (B,1,c) above with the addition of the same relatives of the spouse of the teacher. Emergency leave can also be used attending the funeral of the individuals listed in (B,1,c) or court-ordered appearances. On the fourth and fifth days of emergency leave, not for a death or jury duty, the cost of a substitute will be deducted from the teacher's salary.
 - i. Personal leave is restricted to two (2) days per year.
 - 1. No reason is required to be stated for personal leave

2. Emergency leave must have a stated reason and documentation of the emergency may be required.
 - ii. Personal leave shall not be taken the week before a scheduled holiday, the week after a scheduled holiday, nor after May 1.
3. Professional Leave:
 - a. Each teacher shall be entitled to one (1) day of professional leave wherein the teacher may attend any workshop or other self-improvement activity approved by the building principal and thereafter verified. Additional days may be approved by the administration provided that:
 - i. A clear benefit to Avant Public School exists
 - ii. The teacher requesting the additional professional leave meets any requirements or limitations imposed by the administration
 - iii. The benefit to the school is acted upon once the leave has been granted and used
 - b. More than one (1) day may be used by the administration for attendance at professional workshops, etc. provided that the superintendent shall approve those attended by principals and the School Board shall approve those attended by the superintendent.
4. Notification:
 - a. The status of all types of leave shall be reported in writing to all staff members upon conclusion of the school year and again at the beginning of each school year. The only leave that is accumulative is sick leave.
5. Excessive Use:
 - a. Any teacher who used professional or emergency leave in excess of that available, will have his/her action documented by the principal and it will be considered potential cause for dismissal.
6. Leave Charging Chart:
 - a. The principal should make a concerted effort to follow this chart in order to eliminate abuse in the practice of “covering” absent teacher’s classrooms.

b. LEAVE CHARGING CHART

Number of periods gone	Time deducted from teacher’s leave	Substitute hired?
One	None	No, covered

The school district and individual educators jointly accept the responsibility for the improvement of efforts to educate the students in our district. All staff members are expected to perform will in relation to their job descriptions, statements of objectives and approved performance criteria. Evaluation is a system for documenting the criteria and the evidence of achievement by staff members.
 - b. The Board of Education of Avant School District CO-35, Avant, OK, hereby adopts an evaluation policy, procedures, criteria, and instruments for all certified employees in compliance with 70 O.S. 6-103, Supp, 1077.
 - c. Effective with the 2012-2013 school year, the performance of all certified staff members will be evaluated using the criteria developed and distributed by the State of Oklahoma known as “TLE Teacher & Leader Effectiveness” Model. Each evaluation shall be based upon the evaluator’s actual observation of the person being evaluated while performing his/her job function. The superintendent will be evaluated by the Board of Education; the principal and other administrators will be evaluated by the superintendent; and teachers and other non-administrative staff will be evaluated by the principal as provided by law.
 - d. Evaluation reports will be completed on an approved evaluation form and be followed by a conference between evaluator and the staff member. Both will sign the form. If the evaluator recommends a plan for improvement, the evaluator and staff member will develop a plan. The plan will include a statement of how the district will assist with the improvement efforts.
2. Performance Criteria:
 - a. Written performance criteria accompany the evaluation forms and are made available to each staff member to be evaluated.
3. Evaluation Records:
 - a. Evaluation and observations data will be collected by the evaluator and kept in the file of the person evaluated until June 30 of the effective year. On June 30 they will be disposed of. The evaluation itself will be kept indefinitely in the file.
 - b. The Avant School District will comply with statutory requirements in regard to security and controlled access to the evaluation reports as stated above.
 - c. Inadequate performance will be indicated on the evaluation report; corrective action and target dates for accomplishment of corrective action will be indicated on the plan for improvement; ways the district will provide resources and assistance in corrective action will be indicated on the plan for improvement. Resources include but are not limited to
 - i. Formal university or commercial courses

- ii. Assignment to another school or position within the district
- iii. Visitations and planning
- iv. Demonstrations or simulations
- v. Video tapings and assigned supervision
- vi. Reports
- vii. Special supervision
- viii. Assignment to a performance team
- ix. Conferences
- x. Workshops and in-service sessions

4. Purposes:

- a. The district will utilize the evaluation findings to improve learning in the district to include but not be limited to:
 - i. Develop in-service education programs to resolve inadequacies
 - ii. Identify areas where improvements are needed.
 - iii. Provide justification for changes in staff, facilities, resources, and programs, or be a need assessment for developing new programs
 - iv. Disseminate valuable information to various publics
 - v. Provide a record of the quality of teaching and quality of staff in the district

5. Legitimacy:

- a. Any legislative act, Oklahoma State Department of Education ruling, or court decision which makes any part of this policy unlawful will in no way make inactive the rest of this policy handbook.

6. Underlying premise:

- a. Development of the teacher evaluation legislation came after many battles among concerned legislators and representatives of various educational organizations. Each organization in its own way was trying to achieve what was necessary and in the best interest and welfare of the children in the schools.
- b. Such a premise implies the creation of an environment in every school system in which teachers and every other member of the staff are busily engaged in activities designed ultimately to enhance student-learning experiences. Although, it is expected that all personnel will improve both personally and professionally as a result of the evaluation, the intention is that students will be the chief beneficiaries.
- c. Teachers do not come out of training institutions perfect or even complete in their training. Evaluation, therefore, is not mandated to get rid of teachers, but is designed to help personnel improve. The act specifies in several places that the board and the administration should.
 - i. Make a reasonable effort to assist the teacher to correct whatever appears to be a cause for potential dismissal or non-reemployment.
 - ii. Allow a reasonable time for improvement, and Help the teacher to become a better teacher or administrator.
- d. At its worst, the object of evaluation could be to find and expose the faults in educators with the intent of dismissing them. Conversely, evaluation could

limelight the proficiencies of “master” teachers with the purpose being to help teachers with inadequacies achieve that status for themselves. It is hoped that evaluators in the Avant Public School System will have this uppermost in mind...that by far the vast majority of teachers have entered into this profession soberly and purposefully, with the conviction that through a select medium, they have a message to convey to youth. Any suggestions, any criticism that may enhance our potential to communicate that message are welcomed and respected.

7. Time Chart

- a. There shall be three (3) observations (minimum) made prior to an evaluation. One observation is to be scheduled with the teacher. The others are to be unscheduled observations.
- b. Tenured teachers will be evaluated prior to April 10th at least once every year. Observations will continue on a regular basis yearly, and may indicate the need for more frequent evaluations.
- c. The non-tenured teacher will have a minimum of two evaluations per year. One will be prior to November 15th and the other before April 10th.

- a. Generally, all time during which an employee is required or permitted to be on the school grounds at a prescribed work place (except for a 30-minute meal and a 15 minute break) is considered as hours worked. This is true even if the duties are pleasurable rather than burdensome, and even if no productive work is actually preformed.
- b. Only hours in excess of forty per week shall be counted as overtime, and then only if the work is performed at a prescribed and prearranged work place. Hours used as "leave" shall not count as hours worked; however, if the regular tour of duty exceeds forty hours per week, the employee has get credit for all the hours for the regular tour on weeks when "leave" is used.
- c. The Avant School workweek shall begin at 12:01 A.M. on Monday and end at midnight on Sunday.

- e. Although it is the decision of the superintendent to allow overtime work it is the decision of the employee as to whether overtime payment is in cash or in release time.
- f. Release time is time off which is compensated for overtime. If given during the same week as the overtime, an hour release for an hour of overtime is adequate
- g. If the release time is not given the same week and is carried over into the next or subsequent week, time and a half must be given.
- h. When authorized overtime is worked, the employee shall submit a form indicating his/her desire for how compensation is to be given (release time or pay).

 - c. Notes to individual students or sub-groups of students are exempt from this rule.

- c. Employees who are engaged in the performance of work under the terms of federal grants must abide by the prohibition in Paragraph 1 as a condition of their employment. Violation of the prohibition may result in dismissal or non-renewal.
- d. Employees who are engaged in the performance of work under the terms of a federal grant must notify a district administrator of any criminal drug conviction

SECTION D: DRUG-FREE SCHOOLS AND COMMUNITIES ACT

1. Purpose:
 - a. It has long been the policy of the Avant Public Schools that the possession and/or distribution of any illicit drug or alcohol-containing beverage, by either a student or a staff member, is against school policy, and is subject to disciplinary action.
 - b. The use of illicit drugs and the unlawful possession and use of alcohol or both are wrong and harmful.
 - c. Chemical dependence is a contagious, progressive disease that does not disappear of its own accord. Because drugs, including alcohol, have a destructive impact on the brain, regular users lose control over their behavior, and many find it extremely difficult to stop using without outside intervention. Using a drug, including alcohol, just "one time" predisposes a person to try it again.
2. Federal Law
 - a. The Drug Free Schools and communities Act of 1988 requires that, as a condition of receiving funds or any other form of federal financial assistance, a public school must certify that it has adopted and implemented a program to prevent the unlawful possession, use, or distribution of illicit drugs, including alcohol, by students and employees. The program must include as a minimum:
3. Conduct
 - a. Standards of conduct that clearly prohibit the unlawful possession, use, or distribution of illicit drugs, including alcohol, by employees on school premises or as part of any of its activities.
4. Consequences:
 - a. A clear statement of the disciplinary sanctions that will be taken against any employee who violates the prohibition stated in paragraph (1-a).
 - b. Rehabilitation
 - c. Information concerning available counseling, rehabilitation and re-entry programs will be made available to employees who request them.
5. Notification
 - a. Notification is hereby given to all employees that compliance with this policy is mandatory, and will be consistently enforced

6. Documentation
 - a. The employee's signed receipt of a copy of this School Board Policy book will serve as documentation of dissemination of this policy to all employees
7. Review
 - a. A biennial review will be in effect to determine the effectiveness of this policy and its programs.

The Avant Board of Education hereby adopts the following:

SECTION E: DRUG-FREE SCHOOLS AND COMMUNITIES POLICY

1. Conduct
 - a. The unlawful use, possession, dispensing, distribution, manufacture, or possession with intent to distribute of any illicit drug, including alcoholic beverages, in any of the Avant District's facilities, on any of the Avant School's property (including vehicles), or at any school sponsored function or event is prohibited.
 - b. Reporting to work, or to any Avant School District sponsored function or event under the influence of an illicit drug, including alcohol, is strictly prohibited.
 - i. A school sponsored function or event is any activity, business or social, that has been called for, or in the name of any group of students and/or employees representing the Avant School or any collection of schools where there are students and/or employees representing the Avant School, regardless of its location.
2. Consequences
 - a. Any employee suspected of violation of this prohibition will be immediately suspended from work (with pay), until an evidentiary hearing is conducted before the Board of Education, establishing the guilt or innocence of the employee.
 - b. If the employee is found guilty, the Board will use its discretion in either:
 - c. Initiating due process to dismiss or non-renew the employee, with no promise of re-entry.
 - d. Initiating due process to dismiss or non-renew the employee, with promise of re-entry upon completion of a counseling and/or rehabilitation program.
 - e. Initiating due process to require the employee to complete counseling and/or a rehabilitation program while continuing to work.
 - f. Contacting the proper agency to refer the employee for prosecution.
 - g. Initiating due process to do any of, all of, none of, any combination of, or anything not mentioned in the four preceding paragraphs.
3. Rehabilitation:
 - a. If an employee of the Avant School is found guilty of violating this policy, the Board of Education will assist the guilty employee in seeking out competent counseling and/or rehabilitation upon the request of the employee and if the Board believes this to be in the best interest of the school district.
 - b. If an employee of the Avant School has not violated the policy, but is aware of a need for counseling or rehabilitation, he/she may receive information on where to get help, such as counseling.

- c. If the employee mentioned in the preceding paragraph (not in violation, but in need of counseling or rehabilitation) approaches the superintendent requesting assistance from the Board concerning his/her problem, the Board of Education will be lenient in arranging release time from work for counseling.
- 4. Notification
 - a. You are hereby notified that compliance with this policy is mandatory for all employees and will be consistently enforced.
- 5. Documentation
 - a. Evidence of employees having read and have had this policy explained to them will be made manifest by the execution of a sign-off sheet, dated and signed and specifying the receipt of the Board Policy Document.
- 6. Extra Curricular Activities
 - a. The following policy applies to violations by members of extra-curricular organizations and the resulting consequences will be assessed in addition to those specified in the Drug Free Schools and Communities policy specified in the Drug Free Schools and Communities policy.

Whenever a coach or sponsor has reasonable suspicion, based upon what he or she believes to be reliable source(s), that an Avant student organizational member has been involved in the use, possession, or distribution of illicit drugs (including alcoholic beverages), whether at or away from school the coach or sponsor will inform the principal, and the principal will investigate the alleged incident.
 - c. Consequences:
 - i. Following the investigation, a group comprised of all coaches and sponsors will convene, and discuss the principal's findings, if the findings lead to group to be reasonably assured of the students' guilt, the following minimum penalties will be assessed.
 - ii. First Offense: Upon the first offense, the student will be suspended from the next two extracurricular activities, and will be required to attend counseling sessions with o arranged by the school counselor. (Refusal of counseling will result in suspension from all extracurricular activities for one year from the date of the assessment).
 - iii. Second Offense upon the second offense, the student will be suspended from all extracurricular activities for one year from the date of the assessment.

SECTION F: NON-INTOXICATING BEVERAGES (3.2 BEER)

REPORTING STUDENTS UNDER THE INFLUENCE OF, OR POSSESSING NON-INTOXICATING BEVERAGES, ALCOHOLIC BEVERAGES, OR CONTROLLED DANGEROUS SUBSTANCES:

- 1. It shall be the policy of the Avant Board of Education that any teacher who has reasonable cause to suspect that a student may be under the influence of, or has in his/her possession:
 - a. Non-intoxicating beverages (including 3.2 beer)
 - b. Alcoholic beverages; or

- c. Controlled dangerous substance(s)
- d. As state law now defines the above, a teacher shall immediately notify the principal or his/her designee of such suspicions. The principal shall immediately notify the superintendent of school and parent or legal guardian of said student of the matter. Reference O.S. Title 70 Section 133
- e. Any suspension and/or search of said student shall be subject to any applicable school policy, state law, or student handbook regulation.

 - 2. Are acceptable to the superintendent, and
 - 3. Do not result in an increased tax burden on the citizens of the School District

4. Prohibited Use
 - a. School facilities will not be used for:

All applications for repetitious use of the school facilities will be renewed at the beginning of each school year and are subject to review by the superintendent.
 - c. Users of school property must assume responsibility for the safety and protection of the audience, workmen and participants to the extent required by law. The superintendent has the right to require minimum limits of public liability and property damage insurance for all groups using any school facility and to require that there be evidence presented to the superintendent in the form of a certificate of insurance, showing Elementary School district No. 35 of Osage County, Oklahoma, as an additional named insured.

With prior permission of the Board of Education, a fee in excess of operating expenses may be charged to a facilities user if such user is using school property as a part of a profit-making operation. Only legally qualified drivers may drive a school bus.

21. Use of School Grounds and Recreational Facilities

1. School Nutrition Services
 - a. Procurement Plan For Child Nutrition Programs
 - i. The Avant Public School Food Authority (SFA) will purchase food and other items for use in the Child Nutrition Program (NCP) in compliance with the Federal Management circular A-102, Attachment O and state law, using the procedures outlined as follows and the attached Chart of Procedures.

METHODS OF PROCUREMENT

1. The method of procurement used will be determined by the aggregate amount of goods, equipment and services purchased. "Aggregate" is defined as any purchase or group of purchases, e.g., milk and milk products, bread, canned and staple foods, fresh and frozen meats, etc., capable of being secured from a single source on a given date or during a purchase period. The procurement methods that will be used by a school district to purchase the goods, equipment, and services required by the program are as follows
2. Small purchase procedures

- a. Competitive Sealed Bids—Formal Advertising
- b. Competitive Negotiation
- c. Non-Competitive Negotiation

CHART OF PROCEDURES

1. Small Purchase Procedures

- a. Small purchase procedures will be used to purchase goods, equipment, and services where the aggregate cost is less than \$100,000 and for fresh produce regardless of the aggregate amount.
- b. When small purchase procedures are used, the following conditions, stipulations, and terms must be met.
 - i. The foods, equipment, or services to be purchased must be adequately and consistently described for each prospective supplier so that each one can provide price quotes on the same merchandise or service.
 - ii. A written or a verbal “request for quotations” for the goods, equipment, or services may be made
 - iii. An adequate number of qualified sources must be contacted to provide such quotes. NOTE: The term “adequate number” is determined by local market conditions
 - iv. Responses to “Request for quotations” can be either in written form or verbal form with written confirmation
 - v. Cost plus a percentage of cost method of purchasing is prohibited
 - vi. Price quotation responses must be retained by the school district with other Program documentation and records for a period of five years after the end of the fiscal year to which they pertain

2. Competitive Sealed Bids (Formal Advertising)

- a. Competitive sealed bids will be used to purchase goods, equipment, and services where the aggregate cost is \$100,000 or more, and when the selection of a successful supplier can appropriately be made principally on the basis of price. NOTE: Breaking up purchase with the intent of circumventing formal advertising procedures is contrary to federal procurement regulations. Any change in the district’s normal purchasing practices, which results in the aggregate amount of purchases becoming less than \$100,000, must be documented for review and audit purposes.
- b. When competitive sealed bids are used the following conditions, stipulation, and terms must be met:
 - i. The invitation to bid must be publicly advertised
 - ii. Bids will be solicited from an adequate number of known suppliers in sufficient time prior to the date set for opening of the bids
 - iii. The invitations for bid will clearly define the goods, equipment, or services needed in order for the bidders to be able to properly respond. This includes product specifications and general purchasing conditions.
 - iv. All bids will be opened publicly at the time and place stated in the invitation to bid
 - v. Where specified in the bidding documents, factors such as discounts, transportation costs, and life cycle costs (for equipment), if applicable, will be considered in determining which bid is the lowest

- vi. Payment discounts will only be used to determine the low bid when prior experience of the school district indicates that such discounts are generally taken
- vii. Any and all bids may be rejected when there are sound documented reasons the best interest of the Program will not be served by the potential suppliers
- viii. Cost plus a percentage of cost method of contracting is prohibited
- ix. All bids received must be documented and such documentation shall be maintained by the school district with other Program records for five years after the end of the fiscal year to which they pertain.

3. Competitive Negotiation

- a. Competitive negotiation may be used when competitive sealed bids are determined to be inappropriate or unfeasible, or when a contract cannot be awarded to a successful bidder based on price alone. This method of procurement is commonly used for the acquisition of professional services. The document used to solicit bids is commonly referred to as a request for proposal. When competitive negotiation is used the following conditions, stipulations, and terms must be met.
 - i. Proposals will be solicited from an adequate number (at a minimum, two) of qualified sources to permit reasonable competition
 - ii. The request for proposals will be publicized and reasonable requests by other sources to compete must be honored to the maximum extent possible
 - iii. The request for proposal will identify all significant evaluation factors, including price or cost where required, and their relative importance.
 - iv. The school district will provide a mechanism; (1) for technical evaluation of the proposals received, (2) to determine which responsible bidders will be contacted for further written and verbal discussions and (3) for selection of contract award
 - v. The contract must be awarded to the responsible bidder whose proposal is most advantageous to the school district when price and/or other factors are considered.
 - vi. Cost plus a percentage of cost method contracting is prohibited
 - vii. All requests for proposals received must be documented and such documentation shall be retained by the school district with other Program records for three years after the end of the fiscal year to which the pertain.

4. Noncompetitive Negotiation

- a. Noncompetitive negotiation is a procurement through solicitation of a proposal from only one source and can only be used when the procurement is not feasible under small purchase procedure, competitive sealed bids (formal advertising), or competitive negotiation. The decision to use noncompetitive negotiation will be justified in writing and be available for audit and review. As with the other methods of procurement, such documentation must be maintained with other Program records for three years after the end of the fiscal year to which they pertain, and cost plus a percentage of cost method of contracting is prohibited.
- b. Circumstances under which a procurement may be made by noncompetitive negotiations are limited to the following;

- c. The merchandise or service is available only from a single source
 - d. A public emergency exists and the urgency for the requirement will not permit the delay involved with competitive sealed bids (formal advertising) or competitive negotiation.
 - e. After solicitations from a number of sources competition is found to be lacking.
5. Code of Conduct
- a. No employee, officer or agent of the school district shall participate in the selection of, or in the award or administration of a contract supported by Program funds if a conflict of interest, real or apparent, would be involved.
 - b. Conflicts of interest arise when any of the following has a financial or other interest in the firm selected for the award:
 - i. The employee, officer or agent
 - ii. Any member of his/her immediate family
 - iii. His or her partner
 - iv. An organization, which employs or is about to employ any of the above.
 - v. The School district's officers, employees or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors, potential contractors, or parties to sub agreements
 - vi. The school district may set minimum rules where the financial interest is not substantial or the gift is an unsolicited item of nominal intrinsic value
 - c. School Districts shall make all officers, employees, or their agents, or contractors, or the contractor's agents aware that violations of the procurement standards are subject to penalties as established by Title 74 O.S. #3401 et. Seq.. also known as the Anti-Kickback Act of 1974

statute and resultant regulations are observed, this plan may be altered to fit specific needs and to attain specific objectives.

SECTION O: ANTI-BULLYING POLICY

1. Statement of Intent

- a. We, the Board of Education, students, faculty, parents, staff and supporters of Avant School, are committed to providing a compassionate, receptive and non-threatening atmosphere for each and every one of our pupils to learn and succeed in. We have a “zero-tolerance” policy against bullying, meaning that bullying of any sort is deemed completely unacceptable in our school community. If bullying does occur, students should be assured of the fact that all incidents will be addressed quickly, thoroughly and effectively. We also expect that anyone – whether student, educator, family member or other school party – who witnesses or has other knowledge of an incident of bullying will report the incident to a staff member immediately and with the promise of confidentiality if desired.

2. Definition of Bullying

- a. Bullying can be generally defined as the use of aggression, intimidation and/or cruelty with the deliberate intent of hurting another person verbally, physically or emotionally. Bullying carries the ramification of causing pain and stress to the victim. Bullying is never justified and is not excusable as “kids being kids,” “just teasing” or any other rationalization. The victim is never “responsible” for being a target of bullying.
- b. Specific types of bullying may include, but are not limited to:
 - i. **EMOTIONAL:** Being deliberately unkind, shunning, excluding, or tormenting.
 1. Examples: Forcing another student to be “left out” of a game or activity, passing notes making fun of a victim, or making threatening faces or gestures)
 - ii. **HOMOPHOBIC:** Any harmful speech or conduct focusing on the issue of a victim’s alleged or actual sexual orientation
 1. Examples may include calling students names such as “faggot” or “dyke”
 - iii. **PHYSICAL:** Pushing, kicking, hitting, tripping, punching or using any other sort of violence against a victim
 1. Examples: Shoving a victim into lockers while changing classes in the hallway, throwing objects at a victim
 - iv. **RACIST/INTOLERANT:** Taunts, slurs and/or physical threats directed around a victim’s race, religion or ethnicity
 1. Examples: Spreading graffiti with racial slurs, making unkind remarks about a student’s religious practice
 - v. **SEXUAL:** Initiating and/or executing unwanted physical contact, sexually threatening and/or abusive comments
 1. Examples: Grabbing a victim’s body, using derogatory labels such as “slut”

- vi. VERBAL: Name-calling, ridiculing, using words to attack, threaten or insult
 - 1. Examples: Spreading rumors, making fun of a student's appearance, mannerisms or intelligence

Please note that an instance of bullying may fall into more than one “category” listed above.

- 3. Why Are Bullying Awareness and Prevention So Important?
 - a. As recent high-profile cases have unfortunately shown, bullying plays a major role in many occurrences of school violence. Students who bully have been proven to have a much greater chance of becoming violent criminals later in life, and some victims of bullying turn to violent outbursts as a “last resort” to escape their torment.
 - b. Bullying has also been linked to a large percentage of teen suicides, and can leave victims with emotional and physical scars well into adulthood. Besides that – put simply – bullying hurts, and no one deserves to be bullied. Respect, tolerance and safety are rights we expect and take for granted in our personal lives and workplaces. Schools should be no different.
 - c. Students come to school to learn and grow. Bullying seriously damages and can even destroy that process. Adults have a responsibility to ensure that children are protected, and schools have an obligation to respond promptly and thoroughly to issues of bullying.
- 4. Policy Objectives
 - a. All principals and administrators, teaching and non-teaching staff, students and parents should have a full understanding of what bullying is and encompasses;
 - b. All school faculty and staff should be thoroughly familiar with the bullying policy, and should follow it accordingly when bullying is reported or observed;
 - c. All students and parents should be thoroughly familiar with the bullying policy, and should know what steps to take when bullying occurs;
 - d. Students and parents should be reassured that the school takes bullying utterly seriously, and will support victims and their families when bullying is reported;
 - e. Bullying will not be excused, permitted or tolerated under any circumstances.
- 5. Warning Signs and Symptoms of Bullying
 - a. Not all victims of bullying will let on that they are suffering at school. Many feel that admitting how bad things have gotten will increase their torment at the hands of the perpetrators if they risk “snitching,” are afraid no one will believe or support them or are too embarrassed to admit what is happening. Parents and faculty should openly encourage students to report all incidents of bullying that are observed or experienced firsthand.
 - b. Even in the event that a student is not forthcoming about being bullied, there may be signs or symptoms that suggest a problem. Adults should be aware of these symptoms and what they signify, and should investigate immediately.
 - c. A child may be a victim of bullying if he or she:
 - i. Is noticeably frightened or evasive when asked “what’s wrong”;
 - ii. Suddenly loses appetite;
 - iii. Begins bullying or showing unusual aggression with siblings, playmates or other children;

- iv. Comes home unusually hungry (may indicate lunch money or lunch itself has been stolen);
- v. Repeatedly “loses” lunch, money or possessions;
- vi. Has unexplained cuts, scrapes or bruises;
- vii. Comes home with clothes dirty or torn, or books/other possessions damaged;
- viii. Begins to perform poorly in schoolwork;
- ix. Repeatedly claims to feel ill before going to school;
- x. Cries him/herself to sleep at night or suffers from chronic nightmares;
- xi. Threatens or actually attempts suicide or other forms of self-harm;
- xii. Attempts to or actually runs away from home;
- xiii. Begins stammering, appearing nervous and/or afraid to look people in the eye;
- xiv. Seems withdrawn, anxious or suddenly suffering from low self-esteem;
- xv. Begins to skip school or begs to change schools or not to have to go to school;
- xvi. Makes significant changes to his/her usual routine;
- xvii. Begs to be driven to school so as not to have to walk or take the bus;
- xviii. Demonstrates marked fear or unwillingness to go to school or take the bus;
- xix. Gives unlikely/unconvincing excuses for any of the above behaviors

It should be noted that the above signs may indicate other problems, but bullying should promptly be considered a possibility and looked into.

6. Proper Bullying Report/Response Procedures

- a. All bullying incidents will be reported immediately to a staff member.
- b. Staff member will record all reported bullying incidents and share them with the principal.
- c. Parents of both victim and perpetrator will be informed and summoned to the school for a meeting about the problem.
- d. In severe instances, local police will be contacted. Bullying victim and his/her family will be informed of their legal options and right to press charges if applicable.
- e. The bullying behavior or threats will be investigated quickly and fully, with both victim and perpetrator informed that the behavior will/must stop immediately.
- f. The bullying perpetrator will meet with school counselors, a designated staff member and (if they are willing to cooperate) his/her parents to understand the seriousness of his/her actions (to include placing themselves in the victim’s shoes to appreciate the undesirable effects of the behavior), and to learn appropriate means of changing behavior.

7. Further Options and Outcomes

- a. The bully will be asked to genuinely apologize to the victim and/or, if the victim prefers, will sign a letter promising to avoid all future contact with the victim.
- b. In serious cases, suspension, expulsion or criminal charges will be considered, with the victim fully informed of all options and actions.

- c. If feasible and if agreeable to the victim, both victim and bully will meet with a school counselor to discuss the problem and brainstorm ideas for reconciliation.
- d. After the incident has been thoroughly investigated and dealt with, faculty and counselors will monitor both students (including regular “check-ins”) to ensure that bullying does not resume or reoccur.

8. Tools for Prevention and Education

- a. The school will adopt any/all of the following tools to prevent and educate students about bullying:
 - i. Writing, posting/otherwise making very visible a set of descriptive school rules
 - ii. Supplying all students, faculty, staff and parents with copies of the bullying policy
 - iii. Asking students to sign and adhere to a behavior contract
 - iv. Engage students in role-playing, creative writing exercises and/or open discussions about bullying
 - v. Emphasizing the importance of reporting incidents of bullying, both observed and experienced, and including confidentiality as an option in making such reports
 - vi. Distributing current literature about bullying to students, parents, faculty and staff
 - vii. Developing an anti-bullying liaison in local law enforcement
 - viii. Emphasizing repeatedly that bullying will not be tolerated at Avant School.

SECTION P: CRIMINAL RECORD CHECK POLICY

RECORDS INVESTIGATION

The Avant Board of Education believes that it has a responsibility to employ only those persons who are qualified in every respect. The board further believes that it should avail itself of means and methods provided by the legislature to assist in the selection of employees. Therefore, it is the policy of this board of education that a felony records check may be conducted of a prospective employee at the superintendent's discretion. A written consent will be required from the prospective employee consenting to a felony records check to be conducted as authorized by Oklahoma law

Any person applying for employment as a substitute teacher shall only be required to have one such felony records search for the school year. Upon request of the substitute teacher, that felony records search results may be sent to any other school district in which the substitute teacher is applying to teach. (HB 1321)

The superintendent will determine whether to request a felony records check of the prospective employee. If the superintendent determines to conduct the felony records check, the superintendent may decide to check the em-ployee's name only or name and fingerprints. Further, the superintendent is authorized to request a state only check, or a state and national search. Such determinations will be made at the discretion of the superintendent.

If the superintendent requests that a national records search be conducted, the prospective employee will be required to furnish a fingerprint card to the Oklahoma State Bureau of Investigation (OSBI) and must pay to the OSBI the cost of the records search up to \$50.00.

If the applicant for employment meets all other criteria for employment in this school district, the applicant may be employed on a temporary basis for up to sixty (60) days pending receipt of the felony records search results. If the applicant is offered permanent employment following the review of the records search, the OSBI search fee, if any, will be reimbursed in full.

REFERENCE: 70 O.S. §5-142

NOTE: A criminal record check of prospective teachers must be requested by the superintendent using a form supplied by the Department of Education. Since that form requires the employee's signature, it is suggested that the form be obtained and used in accordance with this policy.

NOTE: School districts with more than 30,000 students will request background felony records checks directly from the Oklahoma State Bureau of Investigation. If the search is based on name only, the search fee is not to exceed Ten Dollars (\$10.00). If the search is a national search based on fingerprints, the search fee is not to exceed Fifty Dollars (\$50.00).

FELONY RECORDS SEARCH PROCEDURES

Pursuant to 70 O.S. §5-142, the Avant School District will obtain the results of a state and/or national felony record search of the name and fingerprints of every prospective school district employee. During the first interview with each employment applicant, the applicant will be advised that:

1. The school district requires a state and/or national felony record search of every prospective employee's name and/or fingerprints as a condition of employment; to qualify as a substitute, each substitute
2. Will enable the school district to request the search and obtain the results, the applicant must complete and sign an Authorization and Release form provided by the school district;
3. The school district will request a felony record search only if the superintendent of schools recommends employment of the applicant;
4. If the superintendent of schools recommends employment of the applicant, the applicant must pay the search fee, which will not exceed \$50;
5. The school district will reimburse the applicant for the search fee unless the search discloses a prior felony offense conviction;

6. If the superintendent of schools recommends employment of the applicant, the applicant must permit the Oklahoma State Bureau of Investigation to fingerprint the applicant; and
7. The applicant, if placed on duty prior to receipt of the felony search results, will be classified as a temporary employee until the school district is notified that the search is clear of any felony record.

If the felony records search reveals a prior felony offense conviction or if the applicant provides a false response to one or more of the questions on the Authorization and Release, the applicant will be denied employment and, if placed on duty prior the receipt of the search results, will be deemed to have resigned from employment with the school district, effective upon acceptance by the board of education. The board of education may accept any employee's resignation at any time within thirty (30) days after the date the school district is notified of either the unsatisfactory search results or learns of the applicant's false response, whichever is later. Under these circumstances, the employee waives any due process procedures which might otherwise be available under federal and state law and school district policies and procedures.

The school district will also request a state and/or national felony record search of the name and fingerprints of any current school district employee if the board of education recommends a search of that employee's felony record.

Applicant hereby releases Applicant's felony record search results to the School District. Applicant also releases the School District of any and all liability relating to its request for, receipt, and use of the search results.

Applicant understands that if Applicant is hired by the School District prior to receipt of the results of the felony record search, Applicant will be classified as a temporary employee until notified otherwise by the superintendent of schools. Furthermore, Applicant understands that if the felony record search reveals a prior felony offense conviction or if Applicant provides a false response to one or more of the above questions, then Applicant will be denied employment. If Applicant is employed prior to receipt of the search results which reveal prior felony, then Applicant is deemed to have resigned Applicant's temporary employment with the School District, effective upon acceptance by the board of education. The board of education may accept Applicant's resignation at any time within 30 days after the date the School District was notified of either the unsatisfactory search results or the false response, whichever is later. Applicant waives Applicants right to any and all due process procedures to which Applicant might otherwise be entitled under federal and state law and the School District's policies and procedures.

Applicant's Signature

RECORDS INVESTIGATION CONSENT

The name and fingerprints of an applicant for employment with this school district may be submitted to the Oklahoma State Bureau of Investigation for a state and/or national felony records search. Such a search will require that you be fingerprinted by the OSBI, or designee, and that you pay the cost of the search up to \$50.00. If you are subsequently employed or are employed for a temporary period pending the receipt of the search results, then the district will reimburse you for the cost of the search. PUBLIC NOTICES

This policy book is a collection of operating procedures based upon state law and local Board of Education guidelines. Its purpose is to establish a more efficient educational plant for the children and patrons of the Avant School District C-035

Because the Federal government and the State of Oklahoma are constantly revising, eliminating and originating laws pertinent to schools, the Board of Education feels a responsibility to its employees and its patrons to try to maintain a policy book that is up-to-date on these laws.

The Avant Public School system wishes always to support an open-door-policy encouraging all interested in education – students, faculty, parents, administration, Board, and community – to feel free to sit down together and discuss any matters related to obtaining the best possible instruction for this area's youth.

Most of the items within this policy book do not contain the specific laws that dictated the policies, but interested patrons should feel free to ask about precedents for these policies and so become better aware of the dictates that the local board must follow.

All of us are interested in quality education for our youth, and in that interest this policy book has been created and adopted.

SECTION A: FORMULATION OF POLICIES

1. The superintendent of schools shall initiate the updating annually of this policy handbook by seeking input from students, parents, and staff. Recommendations will be formulated and presented for approval to the Board of Education. The recommendations shall have as their foundation sound educational philosophy, State Law, Federal Law, and Oklahoma State Board of Education regulations.
2. Any legislative act, Oklahoma State Department of Education ruling, or court decision that makes any part of this handbook unlawful will in no way make inactive the remainder of the handbook.
3. In a situation arising for which there is no policy, the superintendent shall have the authority to establish one that shall have the effect of law until and unless overturned by subsequent School Board action.
4. Any action regarding policy taken by the Avant Board of Education in a duly called meeting, whether actually mechanically written, duplicated, and placed in this handbook, shall immediately upon passage become a policy of the Avant School District.

Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.
 - a. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; A person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as disciplinary or grievance committee, or assisting another school official in performing his or her tasks.
 - b. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility
 - c. Upon request, Avant School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

SECTION H: EMPLOYEE INTERNET AND COMPUTER USE

The Internet is available through district owned computer equipment for use by employees and students of this district. The Internet offers vast, diverse and unique resources. The goal in providing service to teachers and students is to promote educational excellence in the Oklahoma Public Schools by facilitating resource sharing, innovation, motivation, collaboration, communication, self-directed learning, personalized instruction and research.

1. Terms and Conditions
 - a. The Internet is an electronic highway connecting computers all over the world and millions of individual subscribers. Students and teachers will have access to the following.

- i. District assigned electronic mail communication with people the world over.
 - ii. Information and news
 - iii. Public domain software
 - iv. Topics ranging from diverse cultures, to the environment, to music, to politics.
 - v. Access to online university resources
- 2. Access to the Internet will enable students and adults to explore thousands of libraries, databases and other online information sources while exchanging information with Internet users throughout the world. Concerned adult users having supervision over minor users should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate, or information potentially offensive to some people.
- 3. The Avant School District and the Oklahoma State Department of Education (SDE) have taken available precautions to restrict access to harmful materials. While our intent is to make Internet access available to further educational goals and objectives, students and others may find ways to access other materials as well. We believe that the benefits to be gained from access in the form of information resources and opportunities in collaboration exceed any disadvantages. Ultimately, parent/guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, Avant Public Schools support and respect each family's right to decide whether or not to apply for Internet access.
- 4. The smooth operation of the network relies upon proper conduct of the end users who must adhere to strict guidelines. These guidelines are provided so that you are aware of the responsibilities you are about to acquire. In general, this requires efficient, ethical and legal utilization of the network resources. If a district user violates any of these provisions, his or her access will be terminated and future access can be denied. A signature on the Internet User's Form is legally binding and indicates the party who signed has read the terms and conditions carefully and understands their significance.
- 5. Acceptable Use
 - a. The purpose of NSFNET, which is the backbone network to the Internet, is to support research and education in and among academic institutions in the United States by providing access to unique resources and the opportunity for collaborative work. The use of another organization's network or computing resources must comply with the rules appropriate for that network. Transmission of any material in violation of any U. S. or State regulations is prohibited. This includes, but is not limited to, copyrighted material, (peer sharing sites are specifically prohibited) threatening or obscene material, or material protected by trade secret. Employee use in political lobbying is also prohibited.
- 6. Privileges
 - a. The use of the Internet is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. Each person who receives access will be informed about the policies governing proper use of the network. Employees will participate in in-service training so that they can manage the computers assigned for their use personally and with students. The system

administrators of the network, the administration and the teachers will deem what is appropriate use and their decision is final. The district may deny, revoke, or suspend specific user access at any time.

- IX. Records or Requests for Access and disclosures Made From Education Records
- a. The Avant School District will maintain an accurate record of all requests for it to disclose information from or to permit access to a student's education records and of information it discloses and access it permits with some exceptions listed below. This record will be kept with, but will not be a part of each student's cumulative school records. It will be available only to the record custodian, the eligible students, the parent of the student or to federal, state or local officials for the purpose of auditing or enforcing federally supported educational programs.
 - b. The record will include at least:
 - i. The name of the person or agency that made the request;
 - ii. The legitimate interest the person or agency had in the information;
 - iii. The date the person or agency made the request; and
 - iv. Whether the request was granted, and if it was, the date access was permitted or the disclosure was made.
 - c. The District will maintain this record as long as it maintains the student's education record. The record will not include requests for access or access granted to parents of the student or to an eligible student, requests for access or access granted to officials or the Avant School District who have a legitimate educational interest in the student, requests for or disclosures of information contained in the student's education record if the request is accompanied by the prior written consent of a parent of the student or the eligible student or the disclosure is authorized by such prior consent, for requests for or disclosure of directory information designated for that student, or for access by a party seeking or receiving the records by a Federal grand jury or other law enforcement subpoena, when the issuing court or agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed.
- X. Procedures to Seek to Correct Education Records
- a. Parent of students and eligible students have a right to seek to change any part of the student's record they believe is inaccurate, misleading or in violation of student rights. (NOTE: Under the FERPA, the District may decline to consider a request to change the grade a teacher assigns for a course.)
 - b. For the purpose of outlining the procedure to seek to correct education records, the term "incorrect" will be used to describe a record that is inaccurate, misleading or in violation of student rights. The term "correct" will be used to describe a record that is accurate, not misleading and not in violation of student rights. Also, in this section, the term "requester" will be used to describe the parent of a student or the eligible student who is asking the District to correct a record.
 - c. To establish an orderly process to review and correct an education record for a requester, the District may make a decision to comply with the request for a change at several levels in the procedure.
 - d. First level decision -When a parent of a student or an eligible student files an item in the student's education record which he or she believes is inaccurate, misleading or in violation of student rights, he or she should immediately ask the

- record custodian to correct it. If the record is incorrect because of an obvious error and it is a simple matter to make the record change at this level, the record custodian will make the correction. However, if the record is changed at his level, the method and result must satisfy the requester.
- e. If the custodian cannot change the record to the requester's satisfaction or the record does not appear to be obviously incorrect, he or she will:
 - i. Provide the requester a copy of the questioned record at no cost;
 - ii. Ask the requester to initiate a written request for the change; and
 - iii. Follow the procedure for a second level decision.
 - f. Second level decision -The written request to correct a student's education record through the procedure at this level should specify the correction the requester wishes the District to make. It should at least identify the item the requester believes is incorrect and state whether he or she believes the item:
 - i. Is inaccurate and why;
 - ii. Is misleading and why; or
 - iii. Violates student rights and why.
 - g. The request will be dated and signed by the requester.
 - h. Within two weeks after the record custodian receives a written request, he or she will: study the request, discuss it with other school officials (the person who make the record or those who may have a professional concern about the District's response to the request), make a decision to comply or decline to comply with the request and complete the appropriate steps to notify the requester or move the request to the next level for a decision.
 - i. If as a result of this review and discussion, the record custodian decides the record should be corrected he or she will affect the change and notify the requester in writing that he or she had made the change. Each such notice will include an invitation for the requester to inspect and review the student's education record to make certain the record is in order and the correction is satisfactory.
 - j. If the custodian decides the record is correct, he or she will make a written summary of any discussions with other officials and of his or her findings in the matter. He or she will transmit this summary and a copy of the written request to the Superintendent of Schools.
 - k. Third level decision -The Superintendent of Schools will review the material provided by the record custodian and, if necessary, discuss the matter with other officials, such as the school attorney or the Board of Education (in executive session). He or she will then make a decision concerning the request and complete the steps at this decision level. Ordinarily, this level of the procedure should be completed within two weeks. If it will take longer, the Superintendent will notify the requester in writing of the reasons for the delay and a date when the decision will be made.
 - l. If the Superintendent decides the record is correct, he or she will prepare a letter to the requester which will include:
 - i. The district's decision that the record is correct and the basis for the decision;
 - ii. A notice to the requester that he or she has a right to ask for a hearing to present evidence that the record is incorrect and that the District will grant such a hearing:

- iii. Instructions for the requester to contact the Superintendent or an officer he or she designates, to discuss acceptable hearing officers, convenient times and a satisfactory site for the hearing. (The District will not be bound by the requester's positions on these items, but will, so far as possible, arrange the hearing as the requester wishes.); and
 - iv. Advise that the requester may be represented or assisted in the hearing by other parties, including an attorney at the requester's expense.
- m. Fourth level decision -After the requester has submitted (orally or in writing) his or her wishes concerning the hearing officer and the time and place for the hearing, the Superintendent will, within a week, notify the requester when and where the District will hold the hearing and who it has designated as the hearing officer.
- n. At the hearing, the hearing officer will provide the requester a full and reasonable opportunity to present material evidence and testimony to demonstrate that the questioned part of the student's education record is incorrect, as shown in the requester's written request for a change in the record (second level).
- o. Within one week after the hearing, the hearing officer will submit to the Superintendent of Schools a written summary of the evidence submitted at the hearing. Along with the summary, the hearing officer will submit his or her recommendation, based solely on the evidence presented at the hearing, that the record should be changed or remain unchanged.
- p. The Superintendent of Schools will prepare the District's decision within two weeks of the hearing. That decision will be based on the summary of the evidence presented at the hearing and hearing officer's recommendation. However, the District's decision will be based solely on the evidence presented at the hearing. Therefore, the Superintendent may overrule the hearing officer if he or she believes the hearing officer's recommendation is not consistent with the evidence presented. As a result of the District's decision, the Superintendent will take one of the following actions:
 - i. If the decision is that the District will change the record, the Superintendent will instruct the record custodian to correct the record. The record custodian will correct the record and notify the requester as at the second level decision.
 - ii. If the decision is that the District will not change the record, the Superintendent will prepare a written notice to the requester, which will include:
 - 1. The District's decision that the record is correct and will not be changed;
 - 2. A copy of a summary of the evidence presented at the hearing and a written statement of the reasons for the District's decision; and
 - 3. Advise the requester that he or she may place in the student's education record an explanatory statement that states the reasons he or she disagrees with the District's decision and/or the reasons he or she believes the record is incorrect
- q. Final administrative step in the procedure -When the Avant School District receives an explanatory statement from a requester after a hearing; it will

maintain that statement as part of the student's education record as long as it maintains the questioned part of the record. The statement will be attached to the questioned part of the record, and whenever the questioned part of the record is disclosed, the explanatory statement will also be disclosed.
